

BLENDED INTENSIVE PROGRAM (BIP)
HEALTHY AND SUSTAINABLE INCLUSIVE SMART CITIES
(ID number 2021-1-BE02-KA131-HED-000005663-3)

The BIP interprofessional education program “**Healthy and sustainable inclusive smart cities**” (2022-23) focuses on social determinants of health that contribute to the creation of healthy and sustainable smart cities and is aimed at students from various disciplines such as Nursing, Social Work, Tourism, Civil Engineering students etc.

The goals of the program are: intercultural learning, interprofessional learning and community service learning.

It is organized by VIVES University of Applied Sciences, Belgium and includes both online and live courses. 6 Universities from 5 countries participate in the program, namely the following: Vives University of Applied Sciences, Ocellia UAS, Murcia University, University of West-Attica, Instituto Polytecnico de Coïmbra, Instituto Superior de Ciencias Educativas Lisboa Odivelas-Porto.

The University of West Attica is represented by the Nursing Department (B sector «Community and Public Health Nursing»)

During the academic year 2022-23 members of the B sector that took part were: Dr Sotirios Plakas (member of the Erasmus committee), Dr Marianna Mantzorou, Dr Theodoula Adamakidou, Dr Alexandra Mantoudi and the member of the Erasmus committee Dr Alexandra Koreli.
